

LIPOKONTUR™ Platform = KONTUR MD™ Radio Frequency + LIPOLYS AMI™ Shockwave Therapy

LIPOKONTUR™ platform

*offers a combined approach to treating cellulite,
stretch marks,
circumferential reduction
and to tighten lax skin.*

CARISMED GmbH LIPOKONTUR™ platform combines intense focused heat energy (multipolar RF) with the acute mechanical power of radial acoustic-wave energy (RSWT) into a single medical device to achieve exceptional clinical outcomes.

MAIN INDICATIONS FOR THE LIPOKONTUR™ platform:

1. BODY (Buttocks, Love Handles, Upper Legs, Abdomen, Upper Arms)
 - a. Cellulite, dimpled skin
 - b. Stretch marks
 - c. Circumferential Reduction, Tightening of lax skin (i.e. post liposuction)
 - d. Lymphatic drainage
 - e. Wound healing, improvement of microcirculation and vascularization
2. FACE & NECK
 - a. Skin tightening (Aging skin, sagging, crepe-like skin, droopy skin of the eyelids or jowls)
 - b. Fine and deep wrinkles
3. PHYSIOTHERAPY & PAIN MANAGEMENT (optional)

Made in Germany
ISO 13485 CE Mark

LIPOKONTUR™

A Synergistic approach to Beauty™

Face & Body Treatments | Face and Neck | Skin Tightening | Lifting, Rejuvenation

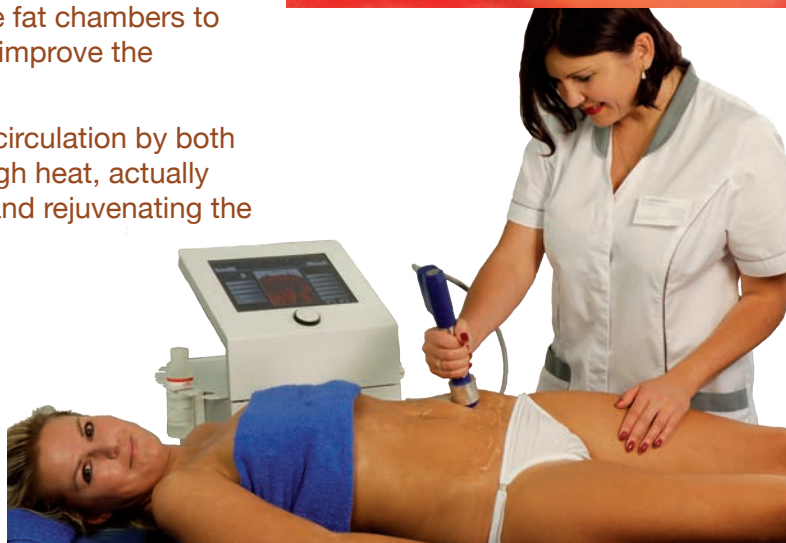

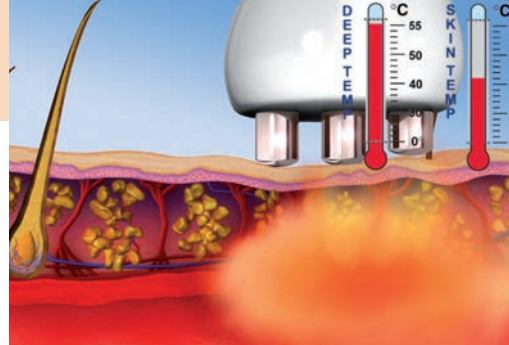

CARISMED 

The LIPOKONTUR™ formula =

uniquely offers the complementary synergy between:

- thermally heating and mechanically breaking down the fat cells and then intensely draining them into the bloodstream
- acoustically loosening and weakening the stiffen fibrous structures holding the fat chambers to smooth out the dimples and improve the orange-peel look of cellulite
- increasing blood and lymph circulation by both the strong shocks and the high heat, actually creating new blood vessels and rejuvenating the tissues for the long term.

The LIPOKONTUR™ Platform includes:

- Complete Expert Mode KONTUR MD™ MultiPolar RF (4 handpieces, face + body)
- Complete Expert Mode LIPOLYS AMI™ Shockwave (1 or 2 handpieces)
- The Award Winning Physiotur Trolley (1 handpiece holder for both devices)
- Medical Thermometer for KONTUR MD™
- User Manual
- Medical Protocols

Specifications

- Fully Graphic
- 8 Languages (more to come)
- Automatic-Mode and Expert-Mode
- Favorites – keeps individual preferred settings from Expert-Mode
- Large High-Resolution Color Touch Screen
- Patient Database with 1 Million Entries' Capacity
- USB Memory Stick Adaptor – for new software functionality and Menu upgrades
- Connection to Internet
